

What kind of equipment is FC-FC pigtail

Overview

The FC type fiber optic pigtail, short for Ferrule Connector, was developed in Japan. The FC type pigtail has a simple structure and is easy to operate, making it user-friendly. Executive Summary: A fiber optic pigtail is one of the most commonly specified yet least understood components in structured cabling. Get the wrong connector type, the wrong polish, or skip proper fusion splicing technique—and you're looking at elevated signal loss, increased back reflection, and a. The LongXing brand of fiber cable assemblies are designed and manufactured in LongXing's ISO9001 registered facility. The product range covers both single mode and multimode patch cords and pigtails. which are fully qualified to RoHS standards. FC fiber optic pigtail connector. FiberMania manufactures high-quality FC pigtails designed for demanding applications in telecommunications, fiber optic testing, optical instruments, and laboratory environments.
