

What material is the small round head of the pigtail connector made of

Overview

ST (Straight Tip) Fiber Optic Pigtail is a bayonet connector. It has a ceramic (zirconia), metal (stainless steel alloy), or polymer ferrules, which are used in telecommunications (mainly in multimode LAN networks), industry, medicine, and sensors. Whether it's an electrical system in your car, home, or factory, the quality of the connection is essential, and that's where pigtail connectors come in. These small, often overlooked components ensure a strong, safe electrical connection. So, what exactly is a pigtail connector?

Let's find out! Four (4) sizes of nylon pigtail closed end wire connectors, handling wire combinations ranging from # 10 to # 22 gauge. 5mm pre-radiused zirconia or stainless alloy ferrule. It is with one piece construction and pulls proof design.
