

What modules are best for lighting distribution boxes

Overview

Explore components of a Lighting Distribution Panel including MCBs, ELCBs, busbars, and control switches for safe and efficient power distribution. The Metway DALI gateway provides an interface between DALI lighting products and our addressable control system. The module acts as a fully functional DALI addressable product with 64 individually programmable addresses. Whether you're working with LED Lamps, LED Tubes, Fluorescent Bulbs & Lamps or heavy-duty exterior lighting, our control solutions ensure. This new range of intelligent marshalling boxes and accessories offers a simple and easily configured system with all the components necessary to distribute power, detector inputs and switch commands to the connected luminaires. This ultimate guide explains what a distribution box does, its internal components, common types, real-world applications, and how to select the right DB Box for your project.
