

# What size are the electrical distribution boxes in Portugal

## Article Overview

Electrical distribution boxes in Portugal typically range from 200×200×120 mm to 800×600×300 mm for wall-mounted units, with larger freestanding cabinets reaching up to 2200 mm in height.

### Typical Wall-Mounted Distribution Boxes

For residential and small commercial installations, wall-mounted distribution boxes are most common. Standard sizes generally include:

- 300 × 300 × 150 mm
  - 400 × 300 × 200 mm
  - 600 × 400 × 200 mm
- These boxes house circuit breakers, fuses, and bus bars, and are designed to safely distribute electricity to multiple circuits while providing protection against overloads and short circuits. They are suitable for indoor and outdoor use, often made from thermoplastics like polycarbonate or ASA, or powder-coated stainless steel for durability.

### Freestanding and Industrial Cabinets

For larger installations, such as industrial or commercial facilities, freestanding cabinets are used. Typical dimensions include:

- Height: 1600-2200 mm...
