

Which company in New Zealand designs the best intelligent PDU control board

Article Overview

RackPower is a leading New Zealand company specializing in intelligent PDU control boards with advanced monitoring and customization capabilities.

Overview of RackPower

RackPower is a New Zealand-based manufacturer that designs and produces high-quality Power Distribution Units (PDUs) for data centers, telecom networks, and industrial applications. They are recognized for their expertise in custom and intelligent PDUs, offering features such as:

- Remote monitoring for real-time power usage and capacity tracking
- Energy optimization to improve efficiency and reduce operational costs
- Environmental sensors to monitor temperature, humidity, and other critical conditions
- Custom configurations tailored to specific client requirements

Advantages of RackPower PDUs

- Local expertise: Being based in New Zealand, RackPower provides fast service, local support, and solutions adapted to regional requirements.
- Reliability: Their PDUs are designed for 24/7 operation, ensuring uninterrupted power for critical infrastructure.
- Flexibility: They offer both basic and intelligent PDUs, including metered, switched...
