

Wholesale of heat shrink tubing for optical fiber cables

Article Overview

Optical fiber heat shrink tubing is available wholesale from multiple suppliers, offering protective, insulating, and customizable solutions for fiber optic splicing and cable reinforcement.

Product Overview

Heat shrink tubing for optical fibers is designed to protect, insulate, and reinforce fiber optic splices and connections. These tubes contract when heated, providing mechanical strength, environmental protection, and long-term durability. They are essential in telecommunications, networking, and industrial systems where maintaining optical transmission performance is critical .

Key Features

- **Materials:** Cross-linked polyolefin, PE, or advanced thermoplastics; some reinforced with stainless steel rods or aramid fibers for added strength .
- **Protection:** Moisture resistance, UV resistance, and insulation against heat and environmental stress .
- **Construction:** Single-layer or multi-layer with inner melt-adhesive lining for sealing; clear sleeves allow visual inspection of splices before shrinkage .
- **Applications:** Splice protection, cable repair, termination, and branch-off joints in splice boxes, distribution boxes, and joint boxes .
- **Customization:** Available in single fiber or ribbon fiber, pre-cut lengths, color codin...
