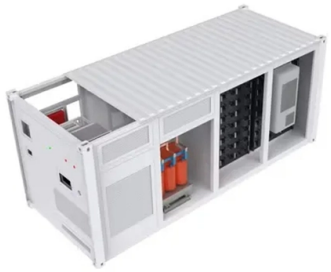
Xfp10ge optical module



Overview

The Juniper Networks EX-XFP-10GE-LR compatible optical transceiver is equipped with an LC duplex connector, reaching a link up to 10km over OS2. QSFPTEK manufactured 10G XFP transceiver module is compliant with XFP MSA, CPRI, eCPRI. This document describes hardware components of the S9700, including the cabinet, chassis, power supply facilities, fan modules, cards, cables, and pluggable modules for interfaces. You can find useful information about S9700 hardware components from this document. 3V LC Duplex Pluggable, XFP from ATGBICS. Similar to the SFP+ modules XFPs are designed for data rates from 8 Gbit/s up to 10 Gbit/s. Their scope of application range from client signals to single-fiber operation to CWDM / DWDM applications for a wide variety of link lengths and wavelengths. Besides, DDM (digital diagnostics monitoring) function is.
